### **The Casino, Card and Betting Game**

**Reader** Mark R. Johnson 2021-12-30  
Casino games and traditional card games have rich and idiosyncratic histories, complex subcultures and player practices, and facilitate the flow of billions of dollars each year through casinos and card rooms, and between professional players and amateurs. They have nevertheless been overlooked by game scholars due to the negative ethical weight of "gambling" – with such games pathologized and labelled as deviance or mental illness, few look beyond to unpick the games, their players, and their communities. *The Casino, Card and Betting Game Reader* offers 25

chapters studying the communities playing these games, the distinctive cultures and practices that have emerged around them, their activities and beliefs and interpersonal relationships, and how these games influence – both positively and negatively – the lives and careers of millions of game players around the world. It is the first of a new series of edited collections, *Play Beyond the Computer*, dedicated to exploring the play of games beyond computers and games consoles.

**Double Down on Your Data** Clive J. Pearson 2012-09-25 Gambling has been with us since ancient times and it is unquestionably here to stay. Although Poseidon, Zeus and Hades may no longer be dividing the world up in a game of dice, flocks of tourist still flood through the gates of Las Vegas' Caesars, Atlantic City's Taj Mahal and Macau's oddly named casino Greek Mythology. In *Double Down On Your Data*, author Clive Pearson reveals that we have entered a brave new world of gambling and entertainment, a world where casino executives can cull through their casino's in-house patron data and discover who are their most profitable patrons. Armed with this information, these casino executives can then market to their most valuable patrons in a highly personal way, thereby creating a long and lasting – and usually highly profitable – relationship. *Double Down On Your Data* teaches casino executives how best to manage their customer relations as today they are faced with a gambler who is much more sophisticated than the ancient Roman soldier who tossed a coin in the air and called "Heads or Ships."
