How to Talk Like a Local Susie Dent 2010-03-04 'Susie Dent is a national treasure' RICHARD OSMAN 'Susie Dent is a one-off. She breathes life and fun into words and language' PAM AYRES

Would you be bewildered if someone described you as radgy? Do you know how to recognise a tittamatorter? And would you understand if someone called you a culchie? How to Talk Like a Local gathers together hundreds of words from all over the country and digs down to uncover their origins. From dardledumdue, which means daydreamer in East Anglia, through forkin robbins, the Yorkshire term for earwigs, to clemt, a Lancashire word that means hungry, it investigates an astonishingly rich variety of regional expressions, and provides a fascinating insight into the history of the English language. If you're intrigued by colourful words and phrases, if you're interested in how English is really spoken, or if you simply want to find out a bit more about the development of our language, How to Talk Like a Local is irresistible - and enlightening - reading.

'Nobody on earth knows more about the English language than Susie Dent and nobody writes about it more entertainingly' GYLES BRANDRETH 'It's an interesting and, at times, hilarious read. One for word-lovers' THE SUN

Exploring Archaeoastronomy Liz Henty 2022-04-30 Archaeoastronomy and archaeology are two distinct fields of study which examine the cultural aspect of societies, but from different perspectives. Archaeoastronomy seeks to discover how the impact of the skyscape is materialized in culture, by alignments to celestial events or sky-based symbolism; yet by contrast, archaeology's approach examines all aspects of culture, but rarely considers the sky. Despite this omission, archaeology is the dominant discipline while archaeoastronomy is relegated to the sidelines. The reasons for archaeoastronomy's marginalized status may be found by assessing its history. For such an exploration to be useful, archaeoastronomy cannot just be investigated in a vacuum but must be contextualized by exploring other contemporaneous developments, particularly in archaeology. On the periphery of both, there are various strands of esoteric thought and pseudoscientific theories which paint an alternative view of monumental remains and these also play a part in the background. The discipline of archaeology has had an unbroken lineage from the late 19th century to the present. On the other hand, archaeoastronomy has not been consistently titled, having adopted various different names such as alignment studies, orientation theory, astro-archaeology, megalithic science, archaeotopography, archaeoastronomy and cultural astronomy: names which depict variants of its methods and theory, sometimes in tandem with those of archaeology and sometimes in opposition. Similarly, its academic status has always been unclear so to bring it closer to archaeology there was a proposal in 2015 to integrate archaeoastronomy research with that of archaeology and call it skyscape archaeology. This volume will examine how all these different variants came about and consider archaeoastronomy's often troubled relationship with archaeology and its appropriation by esotericism to shed light on its position today.

John J. Pershing and the American Expeditionary Forces in World War I, 1917-1919

John T. Greenwood 2021-09-07 General of the Armies John J. Pershing (1860-1948) had a long and distinguished military career, but he is most famous for leading the American Expeditionary Forces in World War I. He published a memoir, *My Experiences in the World War*, and has been the subject of numerous biographies, but the literature regarding this towering figure and his enormous role in the First World War deserves to be expanded to include a collection of his wartime correspondence. Meticulously edited by John T. Greenwood, volume 1 of *John J. Pershing and the American Expeditionary Forces in World War I, 1917-1919* covers the period of April 7 through September 30, 1917. The letters speak to such topics as Pershing's appointment to command the US expeditionary force, his initial preparations, and early meetings with Allied civilian and military leaders, including Field Marshal Sir Douglas Haig and General Henri Philippe Pétain. Drawing heavily on Pershing's extensive personal papers, this collection includes his letters and cablegrams exchanged with Secretary of War Newton D. Baker and Chiefs of Staff Hugh L. Scott and Tasker H. Bliss. Extracts from the large volume of rarely referenced cablegrams represent an important contribution to Pershing's wartime story. Two appendices provide the reader with details of Pershing's relations with the Allied governments and armies (as he reported them in an unpublished part of his Final Report of Gen. John J. Pershing in 1920) and his personal appraisal of Marshal Ferdinand Foch as he knew him during the war. These volumes of wartime correspondence provide new insight into the work of a legendary soldier and the historic events in which he participated, and offer a valuable resource for any serious Pershing or World War I scholar.

Living in Liverpool Alastair Wilcox 2011-05-25 Liverpool was a city whose seemingly boundless opportunities bred wealth for the ambitious few and an often precarious lifestyle for its toiling masses. But how far can we penetrate that lost world of working class life in Liverpool? Is it possible to recreate that bustling, noisy, active city? Fortunately, Liverpool's working classes were being watched. Recording (often, it must be said, with horror) their lifestyles, were a mixture of social commentators. Chief amongst these was local journalist, Hugh Shimmin, and a fresh selection of his best writings is reprinted here. But the observations of others, such as the nationally famous George Sims and the locally renowned Dr Duncan, are to be found within this selection as well. The work of less well-known, but equally remarkable, writers and statisticians who recorded the habits, health, housing, wages and religious affiliations of Liverpool is also included in this collection of over forty key sources. The sources have been given an introduction to put them into a context which will enable their use for general interest and educational purposes by social, local and family historians.

Liverpool and Transatlantic Slavery David Richardson 2007 As Britain's dominant

port for the slave trade in the eighteenth century, Liverpool is crucial to the study of slavery. And as the engine behind Liverpool's rapid growth and prosperity, slavery left an indelible mark on the history of the city. This collection of essays, boasting an international roster of leading scholars in the field, sets Liverpool in the wider context of transatlantic slavery. The contributors tackle a range of issues, including African agency, slave merchants and their society, and the abolitionist movement, always with an emphasis on the human impact of slavery.

The Licensed City David Beckingham 2017-06-06 In nineteenth-century Britain few cities could rival Liverpool for recorded drunkenness. Civic pride at Liverpool's imperial influence was undercut by anxieties about social problems that could all be connected to alcohol, from sectarian unrest and prostitution in the city's streets to child neglect and excess mortality in its slums. These dangers, heightened in Liverpool by the apparent connections between the drink trade and the city's civic elite, marked urban living and made alcohol a pressing political issue. As a temperance movement emerged to tackle the dangers of drink, campaigners challenged policy makers to re-imagine the acceptable reach of government. While national leaders often failed to agree on what was practically and philosophically palatable, social reformers in Liverpool focused on the system that licensed the sale of drink in the city's pubs and beerhouses. By reforming licensing, they would later boast, Liverpool had tackled its reputation as the drunkenness capital of England. The Licensed City reveals just how battles over booze have made the modern city. As such, it confronts whether licensing is equipped to regulate today's problem drinking.

Liverpool - Wondrous Place Paul Du Noyer 2012-03-31 No other city in the world is as well known or loved for its vibrant and definitive musical history as Liverpool. In 2002, Guinness World Records: British Hit Singles voted Liverpool 'World Capital of Pop', recognising that Liverpool's homegrown talent has produced more number one hit singles per capita than anywhere else in the world. In 2008, Liverpool will celebrate its crown as European Capital of Culture. Paul Du Noyer's acclaimed book takes us on a tour of the rich musical history of his hometown, from the world-famous Cavern Club in Mathew Street, host to the Beatles' debut performance in 1961, to the city's musical future with contemporary bands like The Zutons. Featuring interviews with key figures of the music scene, this book reveals the creative impulse behind Britain's most musical city. Find out why Liverpool is not just a place where music happens. The city is the reason music happens.

Writing Liverpool Deryn Rees-Jones 2007-09 Featuring interviews and essays from the likes of Alan Bleasdale, Terence Davies, Linda Grant, Roger McGough, Willy Russell, Levi Tafari and Paul Du Noyer *Writing Liverpool* asks if there is a distinctive Liverpool literary voice, and if so, how it can be identified. The book locates Liverpool as a city with a complex literary and cultural heritage, charting its ongoing connections and affiliations with Ireland, Wales and the US as well as the importance of its working-class culture, particularly arising from its seafaring history. The introduction considers the ways in which Liverpool which, though central because of its status as second port of Empire, by the middle of the twentieth century was very much at the margins of British culture. Chapters explore poetry, novels, drama, TV drama and film from writers as diverse as James Hanley, Malcolm Lowry, J. G. Farrell, Beryl Bainbridge, Brian Patten, Linda la Plante and Ramsey Campbell, and demonstrate the remarkable strength and depth of creative talent in the city. *Writing Liverpool* will be required reading for anyone interested in Liverpool.

Museums, Health and Well-Being Helen Chatterjee 2016-04-22 The role of museums in enhancing well-being and improving health through social intervention is one of the foremost topics of importance in the museums sector today. With an aging population and emerging policies on the social responsibilities of museums, the sector is facing an unprecedented challenge in how to develop services to meet the needs of its communities in a more holistic and inclusive way. This book sets the scene for the future of museums where the health and well-being of communities is top of the agenda. The authors draw together existing research and best practice in the area of museum interventions in health and social care and offer a detailed overview of the multifarious outcomes of such interactions, including benefits and

challenges. This timely book will be essential reading for museum professionals, particularly those involved in access and education, students of museums and heritage studies, as well as practitioners of arts in health, art therapists, care and community workers.

Critical Approaches to Fieldwork Gavin Lucas 2002-01-04 This work takes as its starting point the role of fieldwork and how this has changed over the past 150 years. The author argues against progressive accounts of fieldwork and instead places it in its broader intellectual context to critically examine the relationship between theoretical paradigms and everyday archaeological practice. In providing a much-needed historical and critical evaluation of current practice in archaeology, this book opens up a topic of debate which affects all archaeologists, whatever their particular interests.

Visualising Skyscapes Liz Henty 2019-08-19 Above the land and its horizon lies the celestial sphere, that great dome of the sky which governs light and darkness, critical to life itself, yet its influence is often neglected in the archaeological narrative. Visualising Skyscapes captures a growing interest in the emerging field of skyscape archaeology. This powerful and innovative book returns the sky to its rightful place as a central consideration in archaeological thought and can be regarded as a handbook for further research. Bookended by a foreword by archaeologist Gabriel Cooney and an afterword by astronomer Andrew Newsam, its contents have a wide-reaching relevance for the fields of archaeology, anthropology, ethnography, archaeoastronomy, astronomy, heritage and cultural studies. The volume balances six chapters on theory and methodology which elaborate on the history and practice of the field with six other chapters focused on case studies from around the world. Visualising Skyscapes captures the growing interest in the multidisciplinary study of skyscapes and will be of interest to academics, students and the general public, as well as having international appeal. It is topical, timely and relevant to current debates and will hopefully stimulate further interest in this exciting and relatively new area of investigation. The contributions showcase the work of distinguished academics in the field and the chapters are all enhanced by numerous photographs and images.

Other Voices: Hidden Histories of Liverpool's Popular Music Scenes, 1930s-1970s

Michael Brocken 2016-05-23 At times it appears that a whole industry exists to perpetuate the myth of origin of the Beatles. There certainly exists a popular music (or perhaps 'rock') origin myth concerning this group and the city of Liverpool and this draws in devotees, as if on a pilgrimage, to Liverpool itself. Once 'within' the city, local businesses exist primarily to escort these pilgrims around several almost iconic spaces and places associated with the group. At times it all almost seems 'spiritual'. One might argue however that, like any function myth, the music history of the Liverpool in which the Beatles grew and then

departed is not fully represented. Beatles historians and businessmen-alike have seized upon myriad musical experiences and reworked them into a discourse that homogenizes not only the diverse collective articulations that initially put them into place, but also the receptive practices of those travellers willing to listen to a somewhat linear, exclusive narrative. Other Voices therefore exists as a history of the disparate and now partially hidden musical strands that contributed to Liverpool's musical countenance. It is also a critique of Beatles-related institutionalized popular music mythology. Via a critical historical investigation of several thus far partially hidden popular music activities in pre- and post-Second World War Liverpool, Michael Brocken reveals different yet intrinsic musical and socio-cultural processes from within the city of Liverpool. By addressing such 'scenes' as those involving dance bands, traditional jazz, folk music, country and western, and rhythm and blues, together with a consideration of partially hidden key places and individuals, and Liverpool's first 'real' record label, an assemblage of 'other voices' bears witness to an 'other', seldom discussed, Liverpool. By doing so, Brocken - born and raised in Liverpool - asks questions about not only the historicity of the Beatles-Liverpool narrative, but also about the absence o

Liverpool: The Story of a Football Club in 101 Lives tells the history of the Anfield club through the biographies of key individuals associated with the Merseysiders from their formation in the gas-lit days of Victorian Britain through to the present day. From John Houlding, the Lord Mayor of Liverpool who was the founder of the club in controversial circumstances, to their greatest manager Bill Shankly, and the great players who have worn the famous red shirt throughout its history, the in-depth stories of the characters—players and managers—here paint a fascinating picture of how the club—indeed, the game of football itself—has developed from workers playing for fun to today's multi-million-pound business.

"This wonderful book looks specifically at 101 men who have dominated the club and its successes and failures from the club's formation through to the present day. No self-respecting Liverpool fan should be without this book!" —Books Monthly

My Liverpool Home Kenny Dalglish 2010-09-16 Kenny Dalglish's relationship with Liverpool Football Club is one of the great love stories of sport. From the moment he first set foot in the Anfield dressing room nervously asking for autographs while having a trial at the club, Dalglish felt a passion for Liverpool stir within him. After joining from Celtic in 1977, the supremely gifted striker was embraced by Liverpool fans, for the goals and the glory, and most especially for the three European Cups. The Kop's adoration of King Kenny has never ebbed. Every game, they still sing his name. Liverpool fans have never forgotten how Dalglish held the club together through two tragedies, the first at the Heysel stadium in Brussels in 1985 and then at Hillsborough in 1989. Both disasters are explored at length and in emotional detail by Dalglish in *My Liverpool Home*. Eventually, for the sake of his health and his family, Dalglish resigned and Liverpool have not won the title since. Although Dalglish walked alone, away from Anfield, in his heart he never really left and has now finally returned, playing a pivotal role in this turbulent period in the club's history. *My Liverpool Home* is the story of Dalglish's epic love affair with Liverpool, tracing the highs and lows, the characters, the laughter, the triumphs and the many tears. For football fans, this revealing book about one of the game's greatest players is a must. For those fascinated by how a very private man suffered after very publicly supporting his community, Dalglish's emotional story makes compelling reading.
