Multi-Agent-Based Simulation Scott Moss 2003-07-31 This volume is based on papers accepted for the Second International Workshop on Multi-agent-based Simulation (MABS-2000) federated

with the Fourth International Conference on Multi Agent Systems (ICMAS-2000) held in Boston in July 2000. The purpose of MABS-2000 was to investigate and develop the synergy between software engineering for multi-agent systems and agent-based social simulation. The papers included in the MABS-2000 workshop were selected either because they explore how agent interaction can be used to build multi-agent systems or they offer examples of problem-oriented (rather than technique-oriented) systems. No paper was selected if it specified a model or an issue to make it not a previously chosen technique. All of the papers in the volume have been reviewed and in many cases revised since the workshop. Two papers (by Edmonds and by Hales) as well as the editorial introduction

have been added to those accepted for the workshop. As editors and workshop organisers, we are very grateful to the participants who engaged enthusiastically in the discussions about both individual papers and the issues facing the MABS community. Issues raised and positions taken in those discussions are reported in the editorial introduction. We are also grateful to the authors for their punctuality and the grace with which they received and responded to editorial comments and requests. Klaus Fischer, the ICMAS-2000 workshops chair, was exceptionally patient and diplomatic in reconciling our demands with the resources available.

twins Tom and Glenn Lonardo. The fallout from this calamitous market collapse triggers actions and events that inexorably engulf the brothers, sucking them into a vortex called disaster. It is a tale of 'cool' assassins, a unique Las Vegas casino with its enforcers, Wall Street players and pundits and beautiful women. It is replete with a host of unforgettably bizarre characters including a Jewish midget who is part Eskimo and a FBI agent who yodels, and a background true to life story of brothers brought up in contrasting cultures. It is a story of larceny, love and lust; greed and deceit; a fugitive on the run and murder! While it is suspenseful and has its unspeakably tragic twists and turns, it is highly entertaining and always

amusing. It will keep a reader's eyes open! A work of FICTION, it borrowed from much that was true.
